## PROFESSIONAL SUMMARY

HR Professional & HR Application Consultant with 5+ years of experience across Recruitment, HR Operations, HR Management, and HR Applications. Experienced in analyzing HR and business challenges, identifying root causes, developing practical and sustainable solutions, and translating business requirements into effective HR system solutions.

Strong client-facing experience across pre-sales system demonstrations, post-contract analysis sessions, HR process implementation, client training, system support, troubleshooting, HR data analysis, and process improvement. Combines practical HR experience with HR technology and consulting capabilities to understand client requirements and deliver solutions aligned with business needs.

## HR SYSTEMS & TECHNICAL SKILLS

### Nova HR System

- Hands-on experience across 12 HR system modules.
- Practical experience across all system modules, with varying levels of involvement based on client requirements.
- Client training, HR process implementation, system support, and troubleshooting.
- Additional hands-on experience with Recruitment and Performance Management modules.

### Next HR System

- Hands-on experience across HR system modules.
- Client training and HR process implementation.
- System support and troubleshooting.

### Yota HR System

- Employee Data Management
- Payroll Processing
- HR Operations

### Technical Skills

- SQL: Selected data modification, script execution and activation, data review, and system troubleshooting support.
- Advanced Excel
- Microsoft Office

## PROFESSIONAL EXPERIENCE

### HR Application Consultant

**Dynamic Business Solutions | May 2025 – Present**

- Deliver approximately 3 client demonstrations per month prior to contract signing, presenting system capabilities and assessing their alignment with clients' HR and business requirements.
- Manage and support a client portfolio of approximately 25–35 clients, following up on their operational needs and system requirements.
- Conduct post-contract analysis sessions with clients to understand business requirements, HR processes, and define the implementation scope.
- Provide HR consulting services to understand clients' business and HR requirements and translate them into practical solutions within the HR system.
- Develop and improve HR policies and procedures and support their implementation within the system according to clients' organizational structures and business requirements.
- Deliver comprehensive end-to-end training to clients covering system modules, workflows, HR processes, and day-to-day system operations, with approximately 18 clients trained to date.
- Work hands-on across all HR system modules, with deeper involvement in core modules and additional experience with Recruitment and Performance Management based on client requirements.
- Explain and implement Performance Management and Evaluation processes for clients within the HR system.
- Develop and configure specialized HR system solutions tailored to clients' operational and HR requirements.

- Implement and monitor system updates received from the development team, ensuring proper deployment, functionality, and system performance.
- Work with databases using SQL to modify selected data, execute and activate scripts, review data, and support system troubleshooting and issue resolution.
- Analyze client-reported system issues, identify root causes, and coordinate with development and technical support teams to deliver effective solutions.
- Supervise 2 technical support team members and monitor the resolution of client issues and service requests to ensure system continuity and quality of support.
- Analyze HR data and system-generated metrics and prepare reports that support clients in monitoring performance and making informed decisions.
- Contribute to the continuous improvement of HR system solutions and digital transformation initiatives based on client requirements.

### Senior HR Specialist

**Anas Al-Dimashqi Company | January 2024 – May 2025**

- Managed day-to-day HR operations for an organization of approximately 1,000 employees across 10 branches, including attendance and time tracking, employee records, leave management, and employee relations.
- Managed and maintained employee data through Yota HR System, ensuring data accuracy, completeness, and proper record management.
- Managed payroll processes using Yota HR System and Advanced Excel, ensuring accurate payroll processing and generating payroll reports efficiently.
- Coordinated with different departments to identify workforce and recruitment needs, working closely with the Recruitment Officer to support and execute hiring activities.
- Participated in and supervised recruitment activities, following up on the hiring process from identifying requirements through candidate selection and onboarding.
- Handled employee grievances and workplace issues, supporting positive employee relations and a productive work environment.
- Established and maintained employee social insurance files, ensuring proper documentation and accurate employee records.
- Conducted salary and compensation market research to support the development of appropriate and competitive salary structures.
- Prepared HR reports and analyzed employee data to support management decision-making and workforce planning.
- Served as Acting HR Manager during the final four months of employment, taking responsibility for overseeing HR operations and coordinating HR activities with different departments.

## B-LABAN COMPANY

**February 2021 – January 2024**

### Senior Recruiter

**February 2023 – January 2024**

- Took on an expanded recruitment scope following promotion, covering Cairo in addition to Delta and Upper Egypt branches.
- Conducted Job Analysis, identified position requirements, and developed Job Descriptions based on business and operational needs.
- Worked directly with department managers and operations teams to identify workforce requirements and develop appropriate recruitment plans.
- Managed full-cycle recruitment activities, from sourcing and screening to interviews, selection, hiring, and onboarding.
- Proposed and implemented a recruitment model to source employees from Upper Egypt for Cairo branches, supported by relocation benefits, to address high employee turnover.

**Key Achievement: Reduced employee turnover from 35% to 6% within one month, with turnover continuing to decline to nearly zero.**

- Established a pool of employees ready to support new branch openings and significantly reduced the need for urgent hiring during expansion.
- Prepared recruitment reports, tracked vacancies and candidate pipelines, and presented hiring progress to management.
- Organized and participated in job fairs and recruitment events to support workforce expansion.
- Supported onboarding activities and ensured a structured transition for newly hired employees.

### Recruiter

**February 2021 – January 2023**

- Managed full-cycle recruitment for branches across the Delta and Upper Egypt, covering candidate sourcing, CV screening, interviews, selection, hiring, and onboarding.
- Coordinated with departments and operations teams to identify workforce requirements and execute recruitment plans based on branch needs.
- Built and maintained candidate databases and managed sourcing channels to support recruitment requirements across different regions.
- Prepared recruitment reports and monitored vacancies, candidate pipelines, and hiring progress, providing regular updates to management.
- Participated in job fairs and recruitment events to support the company's staffing requirements.
